

# Carrylight Exhibit - User Instructions

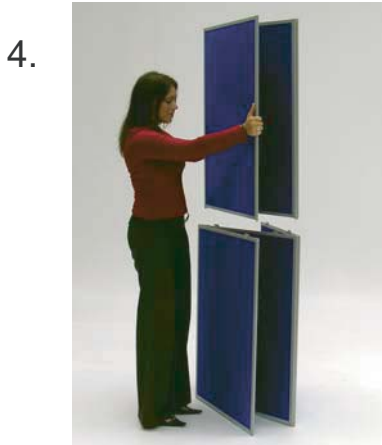

The CarryLight Display Boards are supplied with a black fabric carry bag for easy transportation

Remove top and bottom panels from the fabric carrying bag

Position the boards until a stable shape has been achieved at this point include any steel shelves that have been ordered

Place the top panel onto the bottom panel

Slot the panels together by locking the top panel into the bottom panel

Slide the fixing channel over each end frame, to secure into place

Add a header panel by inserting the header into the top frame and securing with the fixing channel

Sloping leaflet shelf

Botanic 1001 Spotlight

90 degree triangular shelf

Why not add a Botanic clip-on spotlight to enhance your display boards, or a leaflet display or a 90 degree triangular shelf to increase your display area
