

BUDGET OFFICE PARTITION SCREENS user instructions

1

Carefully remove the screens from their packaging.

2

Lay the screen down on a table to attach the feet. Push the foot into the square holes provided. You can then stand the screen up on the feet.

3

When the feet are fitted move to position required and insert the linking strips if required.

4

To insert the linking strip place the two screens together and slot the linking strip into the edging channel.
